EXPERIENCE

Software Engineer – SAP ABAP Nov 2025 – Present
Evora IT Solutions *Pune, India*

- Develop SAP Plant Maintenance (PM) and mobile field-service solutions using RAP, CDS Views, OData V4, BADI enhancements, and SAP BTP.
- Led migration of the Work Clearance Permit (WKP) Report from SAP Service and Asset Manager (SSAM) to a RAP-based Fiori application using OO ABAP, CDS Views, and OData V4 as part of the SAM 2310→2511 upgrade.
- Designed CDS data models, RAP behavior definitions, service definitions, and service bindings for the WKP application following SAP Clean Core principles.
- Developed and enhanced 5 OData services and REST APIs supporting enterprise and mobile applications across business processes.
- Implemented BADI enhancements and SAP BTP integrations with S/4HANA using RFC, IDoc, and API-based interfaces.
- Performed ABAP Unit testing, debugging, root-cause analysis, and production issue resolution across RAP applications, OData services, and integrations.

- Collaborated with functional and engineering teams, conducted code reviews, and mentored junior developers on RAP, ABAP Cloud, and Clean Core practices.

Associate ABAP Developer
Cognitus Consulting Pvt Ltd

Jan 2023 – Nov 2025
Mumbai, India

- Migrated 6 legacy SAP GUI applications to RAP-based Fiori Elements applications using OO ABAP, reducing technical debt and supporting Clean Core adoption.
- Designed RAP applications using Interface, Projection, and Consumption CDS Views with Managed Behavior Definitions, reducing new-feature development time by ~30%.
- Implemented RAP validations, determinations, actions, transaction processing, and draft handling across ~10 O2C business scenarios.
- Developed OData V4 services and RAP Service Bindings supporting Fiori Elements applications used by 50+ business users per deployment.
- Designed CDS Views and AMDP procedures for reporting and database optimization, replacing ~4 legacy ABAP reports with an optimized Fiori Elements application.
- Developed SAP BTP side-by-side extensions and REST/OData integrations using JSON and OAuth for secure external application communication.
- Improved ABAP and database performance by up to 40% through code optimization and HANA push-down, while supporting ABAP Unit testing, debugging, and production issue resolution.

KEY PROJECTS

Block Engine | RAP, CDS, OO ABAP, ABAP Cloud, SAP BTP

- Designed a RAP-based business object with CDS data modeling and OData V4 services, replacing a legacy validation framework supporting ~200 business rules.
- Implemented RAP validations, determinations, and dynamic rule evaluation, reducing manual configuration effort by ~35%.
- Built Fiori Elements configuration and monitoring applications while maintaining Clean Core compliance.

Multipayer Solution | RAP, CDS, S/4HANA, OData V4, AMDP

- Developed RAP services and Fiori applications for real-time Sales Contract processing across 3 funding streams.
- Designed CDS and AMDP-based data models for funding allocation and reporting, reducing report generation time by ~25%.

WKP Report Migration | RAP, CDS, Fiori Elements, OData V4, SAP PM

- Migrated the legacy WKP Report from SSAM to a RAP-based Fiori application as part of the SAM 2310→2511 upgrade.
- Designed CDS data models, RAP behavior, service definitions, and OData V4 exposure for the read-only reporting application.
- Implemented configurable date and plant-based filtering while following SAP Clean Core principles.

EDUCATION

Bachelor of Technology, Mechanical Engineering, Government College of Engineering

2017 – 2021

Full Stack Web Development, Acciojob

Aug 2022 – Mar 2023

LEADERSHIP & CONTRIBUTIONS

- Mentored 4 junior developers on RAP, CDS, OO ABAP, and ABAP Cloud development practices.
- Delivered 5+ internal knowledge-sharing sessions on Clean Core, RAP, and modern SAP architecture for a team of ~8 developers.
